Band is Coming on Fine

The band boys have secured the services of Prof. E. J. Carey of Moscow, and he is holding rehearsals with them each Friday evening. Last Friday evening there was 17 out to practice. Friday afternoons the Professor will instruct the newer members of the band free of charge. Much interest is being taken in the work and the new beginners and others are making good progress. The Professor is very optimistic in regard to the outcome of the band and says we can have as good a band as there is anywhere along the line. The members are paying monthly dues toward the up-keep of the band and several of the business men contribute \$2.00 per month each. It has been suggested that they give a play or entertainment later to secure money to get some new music.

The show and sale are annually held at Lewiston and the date first selected for this year were November 30 to December 5. The new dates will be December 14-19, the postponement being due to the desire to take every precaution to guard the herds of the northwest against the foot and mouth disease that is causing trouble in the middle west states.

Call Extended to Rev. Smith

The call to the Presbyterian pastorate of the Kendrick and Juliaetta field has been extended to Rev. Dr. G. W. H. Smith, of South Bend, Wash. The call was hearty and unanimous. The Dr. is considering the call favorably and if able to arrange his affairs satisfactorily, will begin his work in this field about January 1, next. Dr. Smith has visited many families in Juliaetta, also the school. He is deeply interested in the young people and greatly honors the aged. He has always had large congregations at his services in Kendrick and Juliaetta, and appears to be just the man for the place.

C. C. Brown, sheriff of Latah county, was in town, today.

Mrs. Ben Norris, of Spokane, was in town the first of the week visiting relations.

W. W. Poyfair and baby arrived Thursday in time to eat Thanksgiving dinner with relatives in Juliaetta. Mrs. Poyfair is in a hospital at Spokane, where she recently underwent an operation for appendicitis.

Death of Mrs. Johnson

Alice Ward Johnson was born in Randolph county, West Virginia, January 8, 1854 and died at Juliaetta, Idaho, November 21, 1914.

She was married to Mr. W. W. Johnson October 7, 1875, in West Virginia. Three children were born to them: Tirrell, Amanda and Mary. Tirrell died in June, 1894.

Mrs. Johnson was a pioneer of this district, coming with her family to Idaho and locating on Potlatch ridge 28 years ago last May. When they first came to the ridge the town of Leland had not been established and they erected the first house in that town, and lived on that ridge until nine years ago, when they moved to Juliaetta.

Mrs. Johnson was a quiet, home-loving woman with a sweet disposition and was admired by a host of friends in this section of Idaho. She was ever a faithful wife and mother. She had been an invalid for several years, but bore her afflictions with great fortitude.

She leaves a husband, two daughters, two sisters, a brother, besides a number of other relatives to mourn her loss. The husband is W. W. Johnson, Juliaetta and daughters, Mrs. J. Alexander and Mrs. Eben Adams Juliaetta; the sisters, Mrs. A. W. Lee, Corning, California; Mrs. D. H. Sutherland, Wallace; the brother, Ben Ward, Clarkston.

The funeral was held at the Presbyterian church, services being conducted by Rev. W. B. Reese, an old friend of the family, who was assisted by Rev. Dr. Smith. Interment was made in the cemetery at Cameron.

Lewiston, Nov. 27.—A jury in the district court rendered a verdict in favor of M. A. Means in a case that had been instituted against him by the White automobile company. The jury returned a verdict for \$217.50, the amount that Mr. Means admitted the plaintiff was entitled to, and which was not resisted by him. The plaintiff had sued for \$5000, alleging this due under contract. The case was strongly tried, all the phases of the issue being brought before the jury.

In the case of the State of Idaho vs. Royal R. Cody, the defendant was released upon his own recognizance to appear before the district court on the first day of the next term. This is a case where the defendant was charged with taking a team and buggy from the Red Front stables and driving into the Palouse country where the team was turned out to pasture. Cody is only 19 years old.

Court at Moscow Dec. 14

Moscow, Nov. 26.—In a communication received today by the clerk of the district court, Judge Edgar C. Steele, has ordered a postponement of the Latah county term from November 30 to Dec. 14. The business at Lewiston was heavier than was anticipated and will necessitate the court remaining in session in Nez Perce county two weeks longer than was expected. The Latah county calendar is not heavy at this date.

Wake Up, Northwest, Wake Up!

Already the accusation is being made that Seattle is complaining because the management of the San Francisco exposition does not urge intending visitors to tour the Puget Sound country. Sunset, a San Francisco magazine, and naturally on the defensive of that city, says:

An exposition is designed primarily to advertise the city in which it is held. San Francisco, San Diego and the state of California have raised by bond issues and subscriptions, twenty million dollars for exposition purposes.

THE present military styles of dress require a special style of corset and brassiere.

The military style means, an erect form, and a trim looking figure.

You can get all of this, combined with comfort in our new styles of military corsets and brassieres.

Kabo Corset Company

People's Store Co., Ltd.

The expenditure of this sum will bring to the West the largest number of visitors in its history. The exposition cities will naturally endeavor to hold the visitors for as long a time as they can be induced to stay. The exposition cities have done their full duty—and more—by creating west-bound travel. If Seattle, Tacoma, Portland, Victoria, Vancouver and Spokane want a share of the traffic it behooves them to get exceedingly busy to do what San Francisco and San Diego did: raise money and spend it. Thanks to the twenty millions contributed by California they will never have a better chance to attract tourist travel at a smaller cost. They have the attractions. There is no more business meriting attention.

There is considerable condensed wisdom in the sentence: "If Seattle, Tacoma, Portland, Victoria, Vancouver and Spokane want a share of the traffic it behooves them to get exceedingly busy, to do what San Francisco and San Diego did: raise money and spend it."

Not only the cities mentioned, but every town and hamlet in the Northwest should take advantage of this opportunity and arouse themselves to active work in behalf of their particular communities. Tell the people of the East that when they come to the exposition to come THROUGH this great Northwest territory and see what it has to offer. San Francisco has contributed twenty millions of dollars to get the people started westward. Now it is up to the cities and towns of the Northwest—Washington, Oregon, Montana, Idaho, Wyoming and Utah—to use the "follow-up" plan and see to it that these people know about this country. As Colonel Mulberry Sellers says, "There's millions in it," and we must be up and doing and get our full share of the business.—See Idaho First.

WE QUIT VERA CRUZ

OUR PRESIDENT ORDERS GEN'L FUNSTON AND SOLDIERS TO LEAVE.

U. S. FLAG THERE SINCE APRIL

Pains Taken to Avoid Giving Recognition of Any Faction in Mexico—All Elements Wanted Our People to Get Out.

Washington.—Brigadier Gen. Funston's infantry and marines, numbering about 6000, under orders from the president, Monday hauled the Stars and Stripes down, which have been flying over Vera Cruz since Rear Admiral Fletcher seized that port last April as an act of reprisal in retaliation for affronts to the American flag at Tampico, after General Huerta had refused to comply with a demand by Rear Admiral Mayo for a salute of 21 guns.

It is the determination of the United States government to withdraw its forces and thereby remove a possible cause of international friction as well as a potential factor that might become a domestic issue as between the two factions in Mexico.

Pains have been taken that in the withdrawal no faction shall be recognized.

All elements in Mexico united in asking the American forces to evacuate and pledged guarantees asked by Washington. General Funston has instructions simply to pack up and withdraw his men bringing away any Mexicans who fear to remain, as well as all customs money collected during the American occupation, with copies of the port and municipal records.

The \$1,000,000 or more collected will be held until a government is formally recognized.

The American marines were taken to the League island navy yard, Philadelphia, and the troops to their camp at Texas City.

German Spy Shot.

London.—At 7 o'clock on the foggy morning of November 6 Carl Hans Lody, the German naval lieutenant whom the people of London had come to know as "Lody the Spy," sat in a chair in a courtyard of the old Tower of London, and faced a firing squad selected to put him to death. He had been convicted by courtmartial of communicating with the German authorities to the detriment of England, and in view of the agitation raised throughout the British Isles on the question of alien enemies, no penalty but death seemed to meet the situation. This is the usual fate of all spies caught in war time.

Must Help Our Commerce.

Washington.—Characterizing the past attitude of the United States as "that of a wealthy and prosperous man refusing to give his loyal children the necessities of life," Secretary of Commerce Redfield in a part of his annual report made public Monday emphasizes strongly the need of legislation and money for the protection of commerce and safeguarding vessels against needless destruction.

ARKANSAS BIG FIRES

STATE'S GREAT FORESTS ABLAZE FROM START IN OZARK REGION A FEW DAYS AGO.

LOSSES WILL BE VERY HEAVY

Flames Spread to Country and Cities From Forests—People Flee for Lives—Dense Pall of Smoke Darkens the Sun.

Little Rock, Ark., Nov. 23.—Spread of the forest fires which have been raging in Arkansas for several days was indicated by late reports today. The fires, which started in the Ozark region, now are burning virtually in every part of the state. Only in the extreme northwestern part of the state at Fayetteville, and the country immediately surrounding it, was the country reported free from flames.

With no effective means of fighting the fires in the burning timber areas, and with all vegetation dry as tinder as the result of a protracted drouth, fear tonight possessed people in every section. The announcement of Governor Hays that he is powerless to call upon the state militia as a fire fighting organization added to the general distrust.

Part of the fire damage has been confined largely to timber, fences and telegraph and telephone poles; but tonight a message reached here that told of the burning of the country home of State Senator-elect Hamilton near Camden. No estimate of the loss has been made, but it is known to be large. Great destruction has been caused in the lumber districts.

At Hot Springs forest fires from the south are creeping down the mountainside toward the city and hurried measures of safety are being taken. A dense pall of smoke envelops the valley in which Hot Springs is located. So far there has been no serious property loss or loss of life there.

In the contests farther south, in Poland and in Galicia, a similar state of affairs exists.

OVER 21 LIVES LOST

UNPROTECTED COAST NEAR SAN FRANCISCO CAUSED SHIP TO GO TO PIECES.

NO LIFE SAVING APPARATUS

Delay in Rescue Causes Unnecessary Loss of Life—Captain of Wreck Ship Tells of Cause for Wreck in Bolinas Bay First of Week.

San Francisco, Nov. 24.—Utterly inadequate protection of commerce on the Pacific coast, emphasized two days ago by Secretary of Commerce Redfield as having caused the drowning of 31 persons in one instance, has cost the lives of 21 souls who perished on the Hanael.

Veteran lifesavers, including Captain J. L. Notter of the Point Bonita life-saving station, whose men picked up 13 survivors, said flatly tonight that if the government had not neglected to rebuild an old life-saving station at Bolinas when it chanced to burn down no one need have been drowned from the wrecked schooner.

Despite the fog, Captain Notter said, rescue would have been possible but for the hours consumed in getting life-saving crews and apparatus moved from San Francisco bay. Darkness fell before they arrived and impeded their work until a score of persons went to their death in a quiet sea and under conditions favorable to rescue.

Bodies Brought to Port.

With flag at half-mast and with 15 bodies, three of them women, the revenue cutter McCulloch completed a melancholy journey from the scene of the wreck of the Hanael to this port at noon today.

In the cabin, receiving the ministrations of nurses and doctors, were the survivors, racked by pain, exposure and grief.

Of the living those suffering from exposure and bruises were hurried to hospitals. Thence many went to their homes or those of friends.

Tons of flotsam are piled high upon the shore and safe at last in a sheltered cove 300 yards from the jagged ledge where she struck Monday noon the bulk of the Hanael is burrowing deeper into the white sands of Bolinas bay.

Robert, cattleman, Ferndale, Cal.; W. C. Howell, Eureka, Cal.; Mrs. M. E. Cotterell, Eureka, Cal.; J. A. Hutchinson, dredging engineer, Sacramento, Cal.; L. C. Merritt, Eureka, Cal.; Dewitt H. Cole.

British Recruits Come Slow.

Recruiting throughout the north of England is proceeding slowly and the newspapers of Manchester and Liverpool are outspoken in their discussion of the subject. Within the last four days Manchester, with a population of about 600,000, supplied only 400 recruits through a total of 50 recruiting depots.

Reports from Liverpool show that recruiting is even slower there. A Boy Scout band has been parading the streets for days in an effort to stir up the young men, but without effect.

Football games draw large crowds. Theaters are filled with men of military age. But apparently they are not moved by Lord Kitchener's call for more men.

Foreign Armies Demand Our Goods.

New York.—Agents for the British and French governments announced here Monday that they were in the market for 1,350,000 wool sweaters, 600,000 wool stomach bands, 1,600,000 wool gloves and 500,000 pairs of wool socks. Payment will be made in cash for goods delivered in New York. The wholesale value of the goods wanted is more than \$2,000,000.

Frank James Dying.

Excelsior Springs, Mo.—Frank James, famous as a member of the band known as the "James gang," who terrorized the southwest immediately following the civil war, was stricken with heart disease and was in a critical condition today at the James homestead, nine miles from this city. James is 73.

Northwest States to Profit.

Washington.—The interstate commerce commission ruled Saturday that freight rates on baked goods between points in Washington, Oregon, Idaho and Montana were unreasonable, changing classification from first and second to third class to give lower rate.

THE ANNUAL DOWNFALL

By Wilbur D. Nesbit

It was an earnest humorist who vowed a solemn vow;
"I will not write a turkey-hash-and-soup joke, anyhow!
I will not do that fearsome thing, I will not pen a jest
About the bird whose remnants rise to mock the staying guest."

He made a postscript to his vow, he made a codicil,
He was as serious as though he framed his final will.
And then he sat him down and smiled, and thought with all his might
About the post-Thanksgiving jokes he did not have to write.

But in a day or so he felt exceeding queer and strange.
A restless something held his mind, he hankered for a change.
He asked his doctor what was wrong; the doctor gave a pill
And made a memorandum to add twenty to his bill.

Then all the jokes that grace this time came flocking to his brain,
Each ancient quip and jingling rhyme marched stately in the train,
And each of them and all of them compelled him then to think—
Just as a man thinks when he says he shuts off smoke or drink.

At last he said: "Well, just one more—a farewell jest I'll write.
It shall be nothing serious, some fancy thin and light."
He wrote the jest, just as a man who says he has sworn off
Takes rock-and-rye or some such thing to soothe a little cough.

But why pursue this sorry tale? Why tell of what he did?
'Twas like the "one more" drink or smoke that throws away the lid.
He wrote of turkey hash, and soup, of turkey meat croquettes,
He wrote of bones that had been gilded, of warmed-up entremets.

He wrote of turkey pie and stew, of turkey consommé,
He wrote a turkey-joke debauch until the break of day,
And when they came and found him ill, and sought to nurse him through
They said: "Here, taste this turkey broth. It will be good for you!"

DAY OF FESTIVITY

Spirit of Thanksgiving Manifested
in Enjoyment as Well as
in Devotions.

Therefore the Turkey in the Center
of Well-Spread Board is a Sym-
bol of Praise to the Giver of
All That is Good and
Perfect.

FROM the early days when the
Saxon kings tethered their
steeds "hard by the banquet
board," so that the foam of
the chargers flecked the beard
of the eater, to the present time,
the spirit of the amply loaded board is
the spirit of festivity and of good
will. Thanksgiving day would be
robbed of the particular flavor it
possesses if it were a day of severe
observation. The spirit of Thanksgiving
without the sanctifying grace of
the spread board would be a spirit of
cheerlessness. The Thanksgiving tur-
key is as much a part of the day as
are the devotions that the day calls
forth. The devotions would be dry
and sapless if the day were made a
virtual penance, as would be the case
without the turkey regnant upon the
platter, while the family gathers about
the board to give thanks for home
blessings as a part of the liberal por-
tion that Providence has dispensed
to the nation. The Thanksgiving tur-
key is the emblem of the nation's de-
votion.

The assembling of the congrega-
tions in the churches is but a part
of the devotion of the day. It is, in
fact, the symbolic part. It is ex-
pressive of the spirit of the people
in praise to the Deity for the general
blessings to the nation. The actual
spirit of thanksgiving is that which
takes account of the unison of the
family in the act of praise as it par-
takes of the provisions of the day.
Charles Lamb says that one should
not only say grace at meat, but a
hundred times a day for the good of
living. The grace said at the Thank-
sgiving board—and even those unused
to such invocation should observe it
upon that occasion—is a grace for
the blessings of life which the

Thanksgiving dinner then sets forth.
Back of all nationality lies the fam-
ily. This is the foundation stone in
the social system. The city, the state,
the nation are outgrowths of the
family. The people expressing their
thanks to Almighty God for the bless-
ings conferred upon the community
in its several organizations is not as
sacred a symbol as the family at
meat in recognition of the goodness
of God to its members. The purity
and sweetness of the family tie, the
power and influence of the family
teaching, the consecration and devo-
tion of the heads of the family cir-
cle—these are the things that fill the
measure of Thanksgiving as the
myriad household groups gather about
the well-laden boards to return
thanks for the good things of God to
them. From the youngest to the eld-
est in these groups the real spirit of
thanksgiving is set forth, even though
many of them do not dwell upon the
spirit of praise in fact. For, after all
true thanksgiving is to be in the
spirit of praise and not simply to ex-
press forms of devotion. These latter
are essential as the symbolizing forth
of the gratitude of the nation, but
the simple loving and the goodness of
the family group is the basis of the
real thanksgiving spirit.

The churches will be well attended,
and the discourse, the worship and
the singing will all direct the mind
toward the mighty advance of the
nation that was formed from the seat-
tered colonies of the Atlantic sea-
board and will point to the beginnings
of Thanksgiving day upon the bleak
coasts of New England. All this is
well. God, who made and has kept
the American people a nation, has
done more by that act to attest the
spirit of his fatherhood than by any
other act in the history of nations or
of peoples. All should unite in wor-
ship in the churches and return home
to enter into the praise of the family
circle.

In the family circle will be found
the turkey in the setting of the ac-
cessories of one of the biggest din-
ners of the year. It is to be hoped
that all may have a Thanksgiving
dinner, so that all may enter into
the praise for the goodness of the
giver of every good and perfect gift.
Without the turkey, the accepted sym-
bol of American rejoicing at Thank-
sgiving time, the day would be incom-
plete; with it the spirit and essence
of the occasion is present.

Give thanks unto the Lord, for He
is good: for His mercy endureth
forever.

He watereth the hills from his chambers:
the earth is satisfied with the fruit
of thy works.
He causeth the grass to grow for the
cattle, and herb for the service of
man: that he may bring forth food
out of the earth.

CAPITAL THREATENED AGAIN

Further South in Poland, However,
Teuton Allies Were Repulsed—
Germans Express Confidence
and Russians Sure.

London, Nov. 23.—The veil of se-
crecy has been drawn over the bat-
tles between the Russians and Austro-
Germans. The headquarters of both
armies are confining themselves to
the briefest statements concerning the
hostilities, saying merely that fighting
is in progress.

News coming from unofficial
sources, however, shows that the Ger-
man advance has penetrated farther
into Poland than had been disclosed
previously and that Warsaw is threat-
ened for a second time. General von
Hindenburg's army has advanced as
far as the Lowicz-Skierniewice line,
which means that the Germans have
covered two-thirds of the ground to
the Polish capital, from which they
are now only 40 miles distant. Far-
ther south in Poland, however, the
Teuton allies are said to have been
repulsed between Radom and Kielce.

The battle in East Prussia seems
to have died down, but the Russians con-
tinue to advance in Galicia and are
still fighting on the Czenstochowa-
Cracow front.

The battle in Poland, in the di-
rection of Lowicz, is the most critical
one. The Germans express confidence
in General von Hindenburg, but here
and in Petrograd military observers
express the opinion that Russia's over-
whelming superiority in numbers of
men again must tell.

SPOKANE WEEKLY REPORT.

Provisions.
Butter—The local butter market has
held a firm tone following the advance
noted last week.

Eggs—There is a very firm tone to
the local egg market, with indications
of an advance. Local fresh are not to
be had at any price and eastern
fresh are scarce, the market being
supplied almost exclusively with eastern
and local storage.

Poultry—The near approach of
Thanksgiving has caused a general
shakeup in poultry prices. Prices on
live fowls to the producers are: Hens
and chickens, 10 1/2c; ducks, 12c;
geese, 13c, and turkeys 21c. Dressed
birds are 1 to 2c under the wholesale
quotations. The market is well sup-
plied in all lines and indications favor
a good demand.

Dried Meats—Commodities in this de-
partment still remain quiet and the
market is uncertain. Slight changes
are noted in cowbeef at 9 1/2@10 1/2c,
and pork at 12c. Otherwise quotations
are the same as last week.

Lard and Cured Meats—Both local
and eastern lard have taken a slight
advance, the former to 11 1/2c from
11 1/4c, and the latter to 12c from 11 1/2c.
Eastern, 6 to 8 bacon is up 1/2c to 23c,
these being the only prices changes
noted.

Other Fruits—Orange prices are a
little firmer this week at \$3.75, against
last week's quotation of \$3@3.75. Cali-
fornia grapes are also a little firmer,
the figures being \$1.50 flat against
\$1.25@1.50 last week. On the other
hand Florida grapefruit has declined
to \$1.50 from \$5@5.25.

Potatoes—While the local quota-
tions on spuds this week are given as
the same as last, the market is some-
what weaker and a decline is looked for
most any time.

Other Vegetables—There has been
no price changes in this department
within the week and the market is
holding at former figures, with ample
supplies to meet requirements for the
holiday trade.

Eight Burned at New York.

New York.—At least eight persons
were burned to death and more than a
score injured in two fires in tenement
buildings on the West and East sides
early Sunday morning. Flames trapped
the tenants in their rooms, and
many escaped death by leaping from
roof or windowsills.

The other day a dairy company's
clerk was called to the telephone. A
woman's voice was heard.
"This is Mrs. Nixon," said she. "I
want to know if your cows are con-
tented?"

"Wha-a-t?" asked the amazed clerk.
She repeated the question.
"I see that your rivals advertise
that their cows are all contented,"
said she. "I shall begin to take their
milk unless I am assured that your
cows are all happy."

The clerk begged her to hold the
phone a moment. Then he went
away and knawed a corner off his
desk. When he got his voice under
control he returned to the phone.
"I've just been looking up the books,
mum," he said, "and I am happy to
say we have not received a com-
plaint from a single cow."

A TREATMENT THAT HEALS ITCHING, BURNING SKINS

Don't stand that itching skin humor
one day longer. Go to the nearest
druggist and get a jar of resinol oint-
ment (50c) and a cake of resinol soap
(25c). Bathe the eczema patches with
resinol soap and hot water, dry and
apply a little resinol ointment.
It's almost too good to be true. The
torturing, itching and burning stop in-
stantly, you no longer have to dig and
scratch, sleep becomes possible, and
healing begins. Soon the ugly, tor-
turing eruptions disappear completely
and for good.—Adv.

The doctor told him he needed car-
bohydrates, proteins and, above all,
something nitrogenous. The doctor
mentioned a long list for him to eat.
He staggered out and wobbled into a
Penn avenue restaurant.

"How about beefsteak?" he asked
the waiter. "Is that nitrogenous?"
The waiter didn't know.
"Are fried potatoes rich in carbo-
hydrates or not?"

The waiter couldn't say.
"Well, I'll fix it," declared the poor
man in despair. "Bring me a large
plate of hash."

In a certain town the local fore-
caster of the weather was so often
wrong that his predictions became a
standing joke, to his no small annoy-
ance, for he was very sensitive. At
length, in despair of living down his
reputation, he asked headquarters to
transfer him to another station.

A brief correspondence ensued.
"Why," asked headquarters, "do
you wish to be transferred?"
"Because," the forecaster promptly
replied, "the climate doesn't agree
with me."—Pittsburgh Chronicle-Tele-

Soon Pay War Revenue

Moscow, Nov. 22—The war tax will soon be upon us and the people of Latah county as well as those throughout the nation will enjoy the privilege of licking a new series of stamps that will adorn many kinds of documents. The stamp act goes into effect on December 1. A copy of the provisions and regulations have been received by Agent George Richardson of the Spokane & Inland, sent to him by the auditing department of the associated Hill lines, which contains many clear statements of the purpose of the act together with its provisions.

Among the documents that must be stamped are bonds, debentures and certificates of indebtedness, by any association, company or corporation. In this class a tax of five cents on each \$100 of face value or fraction thereof is levied. The burden of the levy is on the person making the assignment or who issues the document.

All promisory notes, excepting bank notes, issued for circulation, must contain a two-cent stamp for each \$100 of value or fractional part thereof. All express receipts and freight bills of lading a tax of one cent is imposed. Every telephone or telegraph message, where the charge exceeds 15 cents, requires one cent tax for each such message. On all conveyances of real property, where the conveyances shows a value of from \$100 and not to exceed \$500, the tax is 50 cents; for each \$500 additional or fraction thereof an additional 50 cents is required. A tax is imposed on tickets for foreign transportation and a tax

is also imposed on parlor and sleeping car tickets, the company bearing the expense. Violation of any of the provision of the act will result in prosecution, the penalties being heavy.

Steel R. R. Bridge at Kamiah

The Northern Pacific is to immediately begin the construction of a steel bridge over the Clearwater river at Kamiah to replace the wooden structure which has served as a crossing since the Clearwater branch was constructed in 1898. The information was brought to the city yesterday by J. M. Shaw of Kamiah who was advised that the bridge crew would begin initial operations today. It is estimated that five months' time will be required to complete the structure, which will be several hundred feet in length. It is understood that cement pier construction will be utilized and that structure in all features will be a most substantial one.—Tribune.

Stockmen Should be Careful

President Carlyle of the Northwest Livestock Show, has the following to say:

"The recent outbreak of the much dreaded foot and mouth disease in the eastern states has rendered it necessary for stockmen generally to exercise every precaution to prevent the spread of the disease. At present there has been no outbreak in the Northwest. A few shipments of cattle for the West were exposed to the disease before leaving the East. These have been carefully followed by Federal Veterinary Inspectors and as soon as the disease made its appearance the entire shipment was slaughtered, with the result that in no case in the Northwest has the infection spread beyond the railroad yards. In order to be absolutely safe, however, and to be insured that none of this infection could be spread in the West by the movement of live stock at this time the officers of the Northwest Livestock Show at Lewiston have postponed the dates of this Show until December 14th to 19th.

"This action has reassured all stockmen, and the outlook for the Show is very bright. As many of your readers are planning to visit the Show, I hope you will give the change of dates as much publicity as possible so that no one will be disappointed."
